

Survey to determine need for senior citizen housing

The Ministry of Housing is conducting a survey to determine the need and demand for senior citizen housing in the Minden area.

A research analyst from the Ministry of Housing, the Ontario Government's housing agency, will estimate the number of senior citizens living in the Minden area whose housing is inadequate or beyond their financial capabilities.

The demand in the area for housing on a rent-geared-to-income basis will be determined from information gathered through advertising direct mail questionnaires and interviews.

The study, which began March 17 was requested by the Council of the Townships of Anson, Hindon and Minden.

It will include an assessment of economic trends, growth factors and current and future housing needs in the Municipality.

Senior citizens in the Minden area will receive letters outlining the government's housing program and asking them if they wish to participate.

Some interested persons may not be reached by direct mail. The Ministry of Housing urges them to obtain a questionnaire from the municipal offices.

If the survey shows a need for senior citizens' housing, it will likely be an apartment building, although consideration is given to one-storey units which do not require stairways. All apartments have a living room, bedroom, bathroom and kitchen, and are equipped with stove and refrigerator. Rent is geared to income and the minimum is \$37.00 a month, including services.

After considering the survey report, council can initiate the program it outlines by adopting a resolution requesting the Ministry of Housing to go ahead. Capital costs are shared by the Provincial and Federal Governments.

Housing on a rent-geared-to-income basis is part of the Ministry of Housing Home Ownership Made Easy (H.O.M.E.) Program. Those receiving questionnaires are asked to return them as soon as possible to assist the survey.

Mortgage money available in Haliburton County area

At a meeting held recently in the Royal York Hotel in Toronto, Mr. J.B. Cooper of Cooper & Pitts Realtor was appointed the exclusive representative for the Canadian First Mortgage Corporation.

Mr D.H.W. Bath, Vice-President and General Manager, introduced the new operations of the Canadian First Mortgage Corporation to the thirty attending delegates. Canadian First is developing a network of agency representatives across Ontario for the purpose of offering its savings certificates as a secure investment for local residents. It is the Company's intention that the sale of these certificates will provide the Company with funds which will be returned to the communities through the Company's exclusive

representatives in the form of mortgage loans for much needed residential housing, industrial and small commercial properties.

Mr Bath states that "through Mr Cooper of Cooper & Pitts Realtor, Canadian First will be in a position to provide the Town of Haliburton and surrounding areas with secure mortgage financing and investment services. The Company also expects to have additional mortgage funds available for Haliburton due to the sale of its certificates in major metropolitan centres".

Canadian First is a wholly owned subsidiary of The Metropolitan Trust Company which currently administers assets of three-quarters of a billion dollars. The Chairman of Metro Trust is The Right Honourable Roland Michener.

OPP reports two thefts

The Ontario Provincial Police, Minden Detachment report the following activity for the period of March 17 to 24.

There were 61 general occurrences reported and four motor vehicle collisions reported. Of the general occurrences two were break enter and theft, one was a motorized snow vehicle charge, four were Liquor Control Act violations and one was an impaired driver.

There were two reports of thefts from parked vehicles, one of these occurring on March 23 on the Deep Bay Road where about \$250 of tools were stolen from a parked half-ton truck.

Also at Spar Lake a tape set and tapes were stolen from a car March 23.

On March 22 at about 10

pm a report of a person damaging a cottage was received. The cottage of Paul Broad, Islington, Ontario, located at Kennis Lake sustained about \$300 damage. Ernest Henry Ashberry, 30, of 248 30th St., Toronto, has been charged with mischief. Investigation by Prov. Consts. Hickey and Maher.

On March 23 about 3:50 am a report of a person damaging a home was received. Damage had occurred to the residence of Sharon Bacon, east of Carnarvon. Damage was estimated to be about \$560. Reuben James Packard, 18, of Harcourt was charged with mischief and assault causing bodily harm. Investigation by Prov. Consts. Buchanan and Maher.

Salvation Army plans campaign in Haliburton during Easter week

"WHO are they?" "Why are they here?" "Do they all come from Toronto?" No doubt these will be some of the questions asked when a group of seven Officer-Cadets from The Salvation Army College in Toronto come to Haliburton and region for five days of Easter week.

These Cadets are in the final phase of their two-year intensive training period at the Army's college and will be commissioned as Salvation Army Officers in June. Then they will be sent across Canada - and perhaps to Bermuda - to various appointments where they will take on leadership responsibilities within the Salvation Army ministry.

These young people have left varying occupations - nurse/teacher, printer, book-keeper, social worker, to name a few - to respond to the Call of God to enter full-time ministry within The Salvation Army. They come from Manitoba, New Brunswick and Ontario with different backgrounds and personalities. But all have dedicated their lives to God in the service of their fellow man, spreading the Good News to those around.

For five days, they will be engaged in activities ranging from children's meetings, evangelistic services to the Easter message presented in music and drama. They will be involved in Minden and Donald as well as Haliburton, concluding with services on Easter Sunday at The Salvation Army in Haliburton.

Under the leadership of their Brigade Officer, Captain Pamela Woods, the Cadets hope to meet many people during their stay and have opportunity of sharing the real meaning of Easter.

Drivers must stop for school buses

The Minden OPP would like to remind all motorists that they are required to stop for a school bus that is discharging students and has the red flashing lights in operation.

Motorists are required to

stop when approaching the bus to the front or the rear, until the red lights are no longer operating.

Failure to stop is a serious hazard to our children and an offence which carried a fine and four demerit points.

haliburton News Letter

The new industry Swedfurn Canada Limited which last October purchased the property formerly owned by Allan Wood Products at Fenelon Falls, made its first shipments last week. Two large truckloads of furniture were despatched to customers in Montreal although its production line is not yet nearly completed.

We are now in the midst of the winter break and many parents and their children have taken the opportunity to hit for the warm climates in the United States. At one time it was big news when someone went to Florida, now everyone goes and it seems to be the thing to do.

Fog does peculiar things to the driver, warns the Ontario Safety League. In a fog, objects look twice as far as they really are; a driver's subjective judgement of speed could half his real speed; and red lights, such as tail lights and flashing warning signals, become almost imperceptible.

Some of the local sports fans from Haliburton were at the Royal York Hotel in Toronto last week to attend King Clancy Night. The King was honored at a special dinner.

Basil John Howe of Minden passed away at the Ross Memorial Hospital in Lindsay on Monday, March 17. The late Mr Howe was the beloved husband of Bernice Riseborough and was in his 54th year. Funeral service was held at the John Welch and Son Funeral Chapel in Minden on Thursday, March 20. Temporary Interment was made at the Ingoldsby Cemetery Vault and spring interment will be at Ingoldsby Cemetery.

The April meeting of the H.C.S.P.C. will be held on Thursday, April 17, this is the third Thursday, instead of the regularly scheduled fourth Thursday of each month. Please keep this in mind. It is hoped Mr George Dove, Director, Regional Office, Kawartha and Haliburton C.A. S., Peterborough, will be our guest speaker. Time and place will be announced at a later date.

Ontario Hydro has reforested more than 2,500 acres of land in the past three decades. The program has involved the planting of more than 2,000,000 trees.

For the first time since December, people were turned away from the Sunday afternoon Recital at the Academy Theatre in Lindsay.

Personnel of the Coboconk detachment of the Ontario Provincial Police became involved in a crime cleanup spree over a recent weekend as they recovered two vehicles stolen from Orillia and arrested two youths in connection with cottage breakins.

In a democracy, every citizen, regardless of his interest in politics, "holds Office"; every one of us is in a position of responsibility; and, in the final analysis, the kind of government we get depends upon how we fulfill those responsibilities. We, the people, are the boss, and we will get the kind of political, leadership, be it good or bad, that we demand and deserve.

Along the Trails

By Roy Bates

Pat Waddell and Russell Sisson, both of Haliburton Forest, went to Timmins and Hearst recently to see two snowmobile trail grooming machines just imported into Ontario, and to ride the resultant excellent trails.

Natural Resources at Timmins, according to Pat, is a sophisticated expensive affair that grooms well enough but can be broken quite readily. For mobility, its hydraulic pistons can fold the groomer compactly on the back of the SV 200 towing machine.

The grooming ensemble purchased by Hearst's Club Voyageur makes a twin track, each fifty inches wide and separated by an eighteen inch wide median of snow. The club uses timber access roads which are straight and flat and groomed smooth.

Pat suggests, if you go to Hearst to see these wonderful trails, that you take a fast machine. Also, that you stay downtown at the Northern Seasons Motel, where Claude and Manon Jaques, the owners, are excellent hosts. (705) 362-4281.

Voyageurs' president, Robert Vaillancourt, says that Hearst's snowmobiles average one and a half per family.

Speaking of grooming equipment, we understand that the Ministry of Natural Resources in Minden is quite pleased with the "Bombi" which was put into service on trails in the Minden District this year. The HCSA, looking to upgrade its own grooming effort, is hopeful of obtaining one or more of these tractor-like towing machines for next season.

Anyone who missed the general meeting of the HCSA in the West Guilford Recreation Centre, March 18, missed a very informative talk by O.P.P. Constable Wim McGee, and a couple of interesting films. Constable McGee quite adequately explained the more perplexing points in the new snow vehicle legislation. His was not simply a reading of the act, he took time to interpret it from the viewpoint of the enforcement officer.

An interesting film from Bombardier pretty well sketched most of the myths pertaining to snowmobile damage to the environment. But its message was crystal clear. Stick to the authorized trails, for someone undoubtedly places great value on the young trees you are sure to deform with indiscriminate riding. A second film, from Molson's, gave an exciting account of the seventh Winnipeg of St. Paul Five Hundred.

Chairman Jennings called upon various members of the Board for a resume of the activities of this most productive season for the Association. Highlights were the dry land trails project, Snowarama, successful fund-raising events, and a substantial increase in membership.

These general meetings will be held more frequently if we can find a formula for increasing attendance. Take an interest in your club. Its greatest interest is you.

Last dance of the current season is Snowball Roundup, March 29 at the Haliburton Legion. Help us make this one the most successful to date. And watch for other social events throughout the "off" season.

Curry and Billy Whittaker

Whittaker family asset to Charlotte

Pictured above is a very proud combination to the hockey community in Charlotte N.C.

Arriving in Charlotte early in September as the trainer of the Southern Hockey League's Charlotte Checkers it became apparent that Curry Whittaker and his family would be a benefit to the professional end and also the Charlotte American Hockey Association.

Curry played a big part in the winning of the league in the S.H.L. His knowledge of handling of your people as well as his ability to treat injuries etc. was a great contribution to the Checker

Hockey Club.

His son Billy just eight years old more than held his end up! He played goal for the Charlotte Tykes regular team, goal for the Tyke All Star team and for the Squirt "A" Division. Billy played in more than sixty hockey games and travelled extensively through the southern states to such places as Knoxville Tenn., Atlanta Georgia, Huntsville Alabama to help his teams to many victories.

His average in his own league here in Charlotte was 1.79, the best in the Charlotte Youth Hockey Association. Charlotte is very proud of this sports-minded family.

Legion dart tournament won by Cannington team

Eighteen Dart Teams from the following Branches of the Royal Canadian Legion in Zone F-4, Kinmount, Brechin, Fenelon Falls, Haliburton, Cannington, Omeme, Sunderland, Cobocok and Lindsay took part in an Inter Branch Dart Tournament held in Cannington on Sunday, March 16.

No. 5 team consisting of Bob Stevens, Fred Mazza, Frank Severs and David Spence of Cannington took top honors for the day. Second and third place were taken by two teams from Brechin.

Brechin also took the Doubles competition.

Ted Budd and Bob Stevens both from Cannington tied for high score with 180 each.

The Ladies Auxiliary of the host Branch provided hot meals and sandwiches for the players keeping them

in top shape for their game. Our thanks to the committee in charge for a very successful tournament.

Dale Laporte wins award

Word reached us this week that Dale LaPorte, the colourful netminder on our Haliburton Midget team had been awarded the "Best Goalie trophy" in the C series at Amos, Quebec. The team competed in this tournament in late February, but had to leave for home before the final awards were made. Dale allowed only five goals in three games in the tournament. Congratulations to Dale, and may continued success take him and his team mates all the way to the All-Ontario Championship.

Favoured to win series

Midgets only one win away from finals

Haliburton are now odds on favourites to advance to the OMHA All Ontario D finals. This week they started the best three out, five series against Oro and have taken a 2-0 lead in games.

The series opened in Haliburton Friday night in front of a crowd of over 400 fans. Both teams appeared to be very tight for the first two shifts, but the tension soon lifted from the Haliburton bench when Kirk

Potter scored the opening goal at 2:15. Haliburton continued to gain momentum on a goal from the point by Corey Riley, and a nice goal from close in by Derwyn Barry. Oro finally got on the scoreboard just

before the end of the period.

Haliburton completely dominated the second period with good passing and forechecking. They built up a formidable lead with two goals by Joe Roberts and one from Tim Bain. The third period was less than classic hockey with both teams heavily penalized. Haliburton appeared to be satisfied with their lead and the only goal scored was by Oro. Final score Haliburton 6, Oro 2.

Sunday night a good crowd accompanied the boys to Oro for the second game. There was an air of confidence among the fans and players after their big home win. Some of the confidence was waning however when Oro scored the only goal in the first period, and Haliburton didn't manage to come back with the tying goal by Derwyn Barry until less than a minute remained in the second period. The third period still found our boys working hard but getting nowhere. Joe Roberts managed to put Haliburton ahead with a goal that stood up until almost three minutes remained on and Oro scored a power-play goal to tie it up. Coach, Garry McKnight frantically shuffled lines around in the dying minutes to avoid going into overtime. Suddenly Tim Bain picked up a stray Oro pass at the point and blasted one past the goalie with only 57 seconds left. Final score Haliburton 3 and Oro 2.

Haliburton lost the toss for the extra game so must play a second game in Oro this Thursday at 9:00 p.m. As home ice seems to make such a big difference in both this and the last series this win was very important. If Haliburton wins Thursday they advance to the finals, and if they lose they will return to Haliburton Arena Saturday night, and if necessary Sunday again in Oro.

A final series will be a best four out of seven set against either Caledon or Lucknow who are presently playing off with each other.

HALIBURTON SPORTS

Features colourful costumes

Haliburton Figure Skating Club plans spectacular show April 5

No one will want to miss the spectacular show that is to be held Saturday, April 5 in the Haliburton Arena. Once again the Haliburton Figure Skating Club has planned an evening of entertainment for the whole family. The programme is sure to delight the youngest to the oldest person in the audience.

An exciting number called "Rhapsody In Red" will open the skating programme. Fifteen girls in their red and white costumes will make many intricate patterns on the ice. The senior members of the Club will thrill you with this exacting precision number.

"Hansel and Gretel" will win your heart. This familiar tale begins in the poor cottage of Hansel and Gretel's father and cruel stepmother. The stepmother convinces the father that the children must be left in the forest. There, Hansel and Gretel meet a mushroom and some owls before finding their way home. The children are again taken into the forest. When night falls and the Sandman comes, Hansel and Gretel fall asleep. The birds, chipmunks, mice and rats come to see the sleeping children and cover them with boughs. In Scene Three the children hear the enchanted blue dog. They follow him and meet the flowers and alligators until they come to a small candy and gingerbread house. It is here that we see the Candyman with gingerbread, lollipops, candy canes, lifesavers, and cupcakes. In Scene Four we meet the Wicked Witch. She is overcome and the story ends happily.

Miss Carrie Rinnie will do a solo number. Then onto the ice will skate eight lovely girls in shocking pink outfits with white fur trim and capes. This dance number is certainly a "Winter Wonderland." Mr. Winter Wonderland (Jim Lee) will do a solo. What a

magnificent spectacle to end the first part of the programme.

Featured skaters this year will be our own Seniors who were competitors in the 1975 Kawartha Highlands InterClub Competition. These young people will amaze you with the routines they have developed. There will be a variety of solos and duets involving both dance and precision skating. Suzanne Bennett, Nancy Wood, Heidi Prior, Anne Marie Vanlieshout, Nancy Shipley, Jennifer Sisson, Angela Sisson, Penny Bird, Sharon Peters and Joan Lee will be sure to receive loud

applause for their fine skating.

The shimmering costumes and flowing white veils introduce the Jewel Ballet. This is a beautiful dance number. Your programme will give you the names of these fine skaters.

Always a high point of the Carnival is the Grand Finale. All the members of the Club will again come on the ice for an exciting climax to the evening. Presentations will be made, bringing the Carnival to a close. Be sure not to forget this important event. A truly exciting evening of entertainment is waiting for you.

Races end skating season at Victoria Street School

The children of Victoria Street School ended the regular skating season with a series of races. The following are the winners for each race:

Girls 5 years: Stephanie Wells, Michelle Parish, Lynda Pickett.

Boys 5 years: Sean Whitfield, John Vanderhorst, Conal Creelman.

Girls 6 years: Michelle Harrison, Rene Curry, Lisa Sisson.

Boys 6 years: Darryle Tunall, Cory McKnight, Michael Blake.

Girls 7 years: Anita Kuno, Emma Postelthwaite, Marlene Sanders, Karen Sisson, Sonja Burke, Valerie Hoxie.

Boys 7 years: Michael MacNaull, Michael Brohm, Doug Wells.

Girls 8 years: Miriam Smith, Stephanie Poole, Suzanne Fajar, Terry-Lynn Holm, Shona Ross, Cathy Shipley, Lianne Whitfield.

Boys 8 years: Andrew Bishop, Bernie Upton, Jeff Bain.

Girls 9 years: Chantel LaRue, Rose Daigle, Jeanette Martin.

Boys 9 years: Scott Rae, Glenn Debbes, D'Arcy Poole.

Boys 10 years: Charles Sibley, Shayne Yateman.

We would like to thank all the parents who came so faithfully to tie laces and help the children skate. We feel the children really benefitted by this skating program and look forward to next year.

OPERATION SUPERINTENDENT

\$22,000 - \$30,000 PER ANNUM

(THIS COMPETITION IS OPEN TO BOTH MEN AND WOMEN)

The Algonquin Forestry Authority (A.F.A.) requires an individual to be responsible, under the general manager, for: development and control of integrated logging programs; the production of sawlogs, veneer bolts, poles, pulpwood and other special forest products; the evaluation of grades; distribution of appropriate grades to various mills; liaison between A.F.A. and companies re: product quality and prices.

Location: Huntsville

Qualifications: 1) A degree in Forestry from a university of recognized standing or its equivalent in education and experience

2) Several years experience in both logging operations and mill production, preferably in the tolerant hardwood forest.

Applicants are asked to write in confidence, giving full curriculum vitae and references, by April 10, 1975, to: Algonquin Forestry Authority, P.O. Box 910, Station "F", Toronto, Ontario.

Discussion beneficial

Our thanks this week go out to the Haliburton County Social Planning Council for sponsoring a panel discussion and question period recently on the subject of "Is This The Law" at the Royal Canadian Legion Hall in Haliburton.

The over 100 citizens who attended are concerned at the rising crime rate, the growing incidence of violence and the fact that present bail and parole laws do not give adequate protection to the law abiding citizen.

Everyone who took time out to be at the Legion Hall for this panel came home with the feeling that they had learned a great deal about the law and the problems facing society today.

One of the main subjects to arise out of this discussion was on the subject of capital punishment. We hear the pros and cons but after hearing from both sides we realize that 85 percent of the Canadian people are for capital punishment.

Many of the people who attended the panel discussion are of the opinion that they would like to have more of them and it seems to be the general opinion that the next one should be on local issues.

Bad roads herald spring

By Jim Csanig

The roads of Haliburton are a wonder to behold each spring. On my daily trek to and from Eagle Lake I have ample time to ponder merits and demerits of spring roads.

By careful calculation it has been ascertained that the normal nine mile drive is now 9.53126, the additional length being caused by bumps, dips, nooks, hillocks, protruding stumps, rocks and any other paraphernalia the road cares to display in spring.

There are, of course, advantages in having the roads as they are now. For example; It is no longer necessary for me to jog each day, sufficient exercise is obtained by furtively attempting to maintain control of my vehicle for the 17 action-packed and suspense-filled minutes it takes to drive the aforementioned distance. Also all the salt is shaken off the car thereby preventing corrosion. Too bad about that Len.

Most places see the arrival of birds as a sign of Spring. However, here we are fortunate to see an even earlier sign of the season. I say, when you see truckloads of axles, shock absorbers, springs and tie rods, arriving at the local car dealers, CAN SPRING BE FAR BEHIND!!

Not enough players for good junior team

The Haliburton Junior Huskies after a fine effort in the playoffs were finally eliminated from playoff competition in Haliburton last week. The Huskies who gave it all they had right to the end finally had to face defeat at the hands of the Bancroft Jets.

The Junior Travelways Huskies had just a so-so season both on the ice and at the gate. The problem seemed to be that they just didn't have enough good players.

In an attempt to ice a contender in the junior league Haliburton must have the co-operation of their neighbours to the south in Minden. It takes the best players from the two villages to form a real good team.

We understand that a gentlemen's agreement between the two villages had been reached insofar as playing talent is concerned.

The verbal agreement was the effect that Minden would send their players of junior age to Haliburton while Haliburton in return would send all of their intermediate players to Minden to play with the Minden Monarchs who were entered in the O.H.A.

Some of the hockey figures in Haliburton claim that they kept their end of the bargain and sent their players to the Monarchs and were glad to do so but that they were disappointed when they were unable to get their fair share of junior players out of Minden.

Rumors are flying at the present time and we understand that Haliburton could be without a junior hockey club next season and in its place they are considering forming juvenile and intermediate teams.

Letters to the editor

Dear Sir:

'Heart Month' in Canada is now over, and on behalf of the Canadian Heart Fund, Ontario Division, please accept our sincerest appreciation for your co-operation and assistance during our financial campaign in February.

Our objective this year was \$3,600,000 and although all returns are not in, due to the disruption in our postal service, we are quite hopeful that our objective will be attained.

Without your willing co-operation in communicating our needs to the public, the Canadian Heart Fund would not be able to express such an outlook.

Heart disease is everyone's problem - and again our thanks for helping us bring to the attention of the public, that - research should be everyone's responsibility.

Yours very truly,

Esther M. Richards,
Director of Public Relations

Dear Editor:

I would like to clear up a few points in your paper so that some stupid rumors can be stopped:

1 I have never yet sold a majorette's crest to one majorette yet, they are **given** to the girls, **not** sold.

2 The West Guilford Centre **donated** the crests. This is one reason why their name is in them and the other is that West Guilford is our "home base."

3 West Guilford Centre is not sponsoring the majorettes, they only donated the crests. We have no sponsor.

4 We belong to the Haliburton Highlands not just to Haliburton town as some people seem to think. We represent **all** regions of Haliburton County and this is one of the reasons we go to all the parades we can in this county.

5 I am the sole manager, teacher, and book-keeper for this group and my books are open to anyone who would like to see them as I have nothing to hide.

6 I only charge a small fee because I just want enough money to cover my gas and to pay my babysitter. I have not yet received any money for my time.

7 I am a volunteer teacher, I have never claimed to be a licenced teacher with honors or grades. I had one year of lessons when I was 10 yrs. old and never touched a baton again until West Guilford started their centre in 1973. Everything I know now I've taught myself from books and by watching other people.

8 Our group was established in July 1973 as a non-profit organization.

9 We were known as the West Guilford Majorettes but I am expanding to different areas now and so we are called the Haliburton Highlands Majorettes but we still represent West Guilford as well as Carnarvon, Maple Lake, Eagle Lake, Haliburton, Minden, Harcourt, Wilberforce, Gooderham, etc., etc.

10 Our new uniforms are not blue or red or gold or dark green. They are a very pale lime

green with Haliburton Tartan accessories on them.

11 Money to run this group has been won in parades and contests, worked for by the sale of tickets, baked goods, and rummage sales, or donated by interested businesses in this community.

and 12 No, we don't know just one routine as you will see this coming summer; but you have to remember you may see it three years in a row, but are they the same girls doing it each year? What is old to you, is new to the girls just beginning baton lessons. Don't forget it takes time to perfect a routine and with girls constantly coming and going you never get much farther beyond a certain level.

I hope this has straightened out a few rumors and some people who started them.

The girls have never claimed to be the best but they do try hard and I think they deserve an "A" for effort. Look for them again this summer, hopefully behind the pipe band as in previous parades.

Sincerely

Mrs Victoria Packard

for the Haliburton Highlands Majorettes

Dear Sir:

Build a new Municipal Hall but keep the ancient one for a museum.

The present museum should be torn down if you ask my opinion.

Also the ancient Municipal Hall would be a better location for a museum too.

Yours truly

H. Stephanie

London, Ontario

The Reeve's Corner

By Reg Booth

Last week we talked about the way that a council must plan ahead to raise funds for the year.

ALL branches of expenditure are controlled in the same manner. Estimates for wages and salaries, for the operation of the arena, and other public services, must be made in advance, and then be included in the budget that we talked about previously.

Any grants to organizations, any planned building or alterations to municipal buildings, must be planned and estimated at the first of the year. After the budget has been set, the council has no other way to get more funds until the next year.

In explaining the above procedure, we can easily understand why councils must sometimes say that no more funds are available for a new project in the middle of the year.

ALL government bodies are supposed to operate in this manner, but sometimes at the federal or provincial level we see a special case where money is borrowed for something extra to the budget. In this case it is necessary to pay extra money for interest and bookkeeping. In a small municipality this creates extra expense through interest and bookkeeping which are often unnecessary.

Scott protests pornography, smut on CBC

HOUSE OF COMMONS DEBATE

CANADIAN BROADCASTING CORPORATION refusal of corporation to supply transcript of program "ten lost years"

Mr. W. C. Scott [Victoria-Haliburton]: Madam Speaker, I never thought I would have to rise in my place and demand that the government order the publicly-owned Canadian Broadcasting Corporation to stop broadcasting pornography and smut.

On February 3 I asked the Secretary of State (Mr. Faulkner), the minister responsible to the House for the CBC, if he would see that any future programs scheduled on CBC would be cancelled if they were no less insulting and of no higher quality than the show billed as "The Ten Lost Years".

The minister said simply that he would make my representation known to the corporation. The minister must have known that that would not answer my question, nor would it settle the issue that I raised. I did not ask the minister if he would make my representation known to the CBC. I could have done that myself. What I asked the minister to do was to take some action to ensure that CBC programming would be made more acceptable to the people whose tax money is used to run the corporation.

On February 13 the hon. member for Mackenzie (Mr. Korchinski) asked the Secretary of State similar questions concerning CBC programming, and the minister replied that it is the policy of the government not to instruct the corporation. I think that we all have a right to ask who does instruct the CBC in the name of the Canadian people if it is not their government.

I do not know of any government agency or Crown corporation which is not instructed and monitored by the government. I had always been under the impression, Madam Speaker, that this was one of the roles of ministers of the Crown. If there are any government corporations which are not monitored and instructed by the appropriate ministers, then it is time to find out which ones they are and to bring them under the control of parliament without further delay.

The Secretary of State, Madam Speaker, is well aware that it has never been accepted policy to turn a publicly-funded agency or corporation loose and allow it to function as it pleases. The mere fact that public money is involved not only makes such a policy unacceptable, it makes it illegal, and I should not have to make that point to the minister.

The point I am making now, and will continue to make until I get some action, is that no broadcasting facilities in Canada can be allowed to operate without some degree of continuing scrutiny and instruction by the appropriate government minister. The broadcasting medium in any country has a tremendous influence on public attitudes and views, and it has the power to mould public and private morality. This

power must be used with restraint, and it must be used in the best interests of the majority of the people.

John Hirsh, the head of CBC television drama, told the Commons broadcasting committee this week that CBC has a responsibility to give the viewer "not only what they think they want, but what the artists know they will want once they try it and once they get to like it".

I have received hundreds of letters from viewers expressing disgust with the type of drama being presented in prime viewing time on CBC, and almost as many telephone calls. All but four of them support my position in this matter. Other members, perhaps all members of this House, have also received letters from constituents, and I believe the CBC has been deluged with complaints.

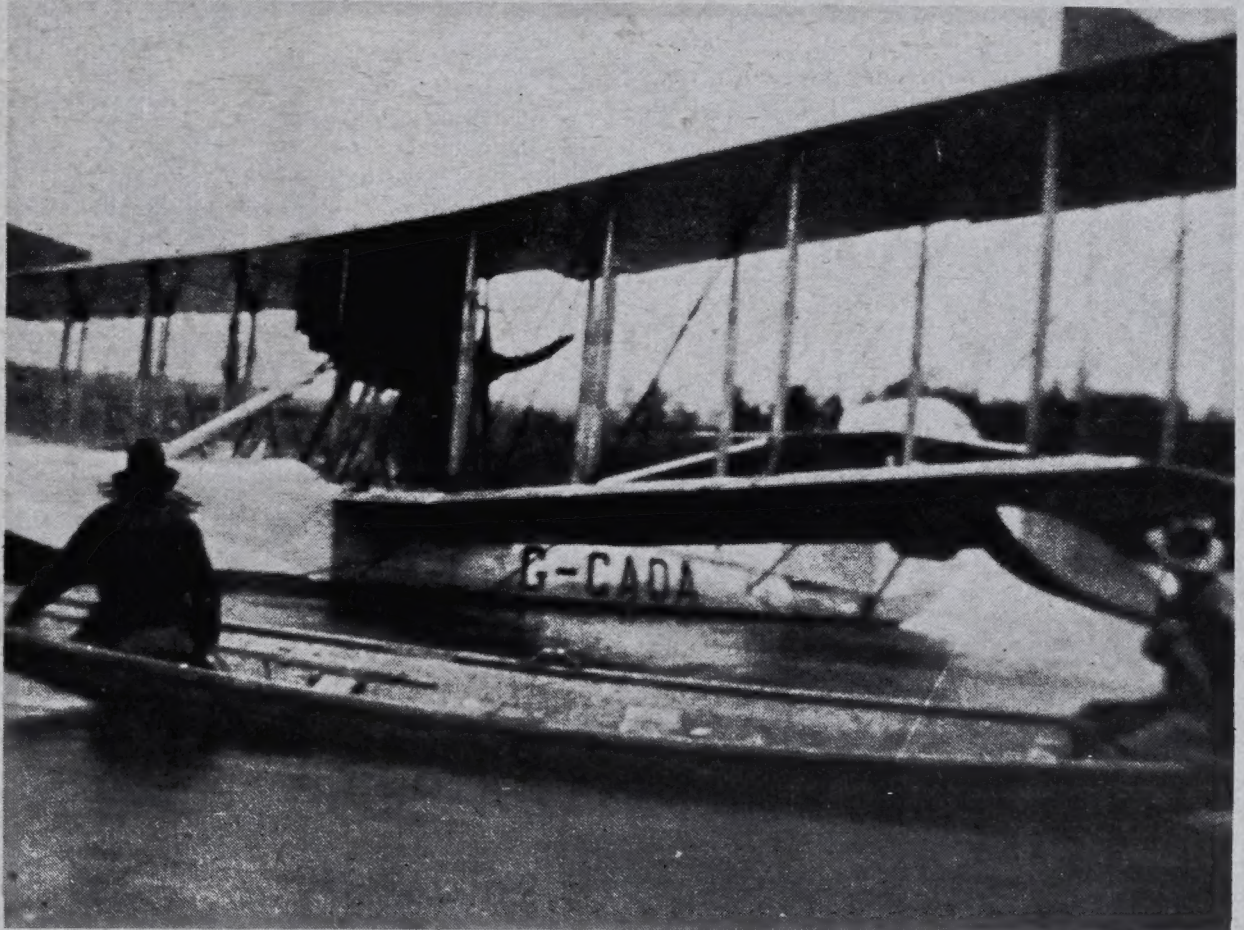

Some people have sent me copies of a form letter sent out by CBC and headed "Dear Viewer". This indicates to me that the corporation does not take these complaints seriously. Why should it, Madam Speaker, when its own minister states publicly that he does not intend to instruct the network? The form letter tells the recipient that the author of the book "Ten Lost Years" was satisfied with the television adaptation.

I have to agree with a letter I received from the

president of a local Council of Women in which she asks the question: whose rights are we supposed to protect, those of the parents and the decent citizens, or those of the smut peddlers? I have received many letters from people who lived through the depression years and every one of them states that the program was not a true presentation of that era; they say that the filth and pornography portrayed in the program only degraded the people and undermined their fine efforts to get through a serious depression.

It has been suggested that anyone who does not want to hear vulgar language or see pornography on television can turn the dial or turn off the set. What an irresponsible thing to suggest. There are people in parts of this country who only have access to two channels on television and there are some places who pay to support the CBC be told that if they do not like to watch filth and garbage on their screens they can turn it off?

The CBC must be told immediately to clean up broadcasting in this country. This year the corporation is asking for \$352 million in public money. That is a lot of money. It belongs to the Canadian people, and someone in the cabinet has to accept responsibility for the way in which it is spent. This is not a request. It is basic necessity.

Pic of the Past

Our thanks this week go to Mrs Lorna Stackhouse of West Guilford who submitted the above photo showing Bert Hicks and Norman Hague paddling along in their canoe viewing the first airplane to ever land on Lake Kashagawigamog near Haliburton. It was in 1925.

Pyramid most stable form known to man

By S. Armstrong Goff
Gooderham, Ontario

Every child soon becomes aware of the shape we call a pyramid, its surface consisting of basic geometrical forms, namely four triangular sides and a square base. It has proven to be the most stable form known to man. This shape also occurs in nature as a crystal in the hardest known substance, namely a diamond. The crystal forming this gem is two small pyramids joined base to base this giving the diamond eight triangular sides.

Historically one early learns of the Great Pyramid of Cheops in Egypt as the only remaining structure of the ancient seven wonders of the world. It seems that the Egyptian kings were fond of building pyramids as tombs for themselves. One may wonder why this shape was chosen. The preserved mummies of these monarchs may give us a clue. It is now

known that if a body is placed in a pyramid in the upper third that it will dry out without decay. Recent experiments have verified this phenomenon. It also appears that electrical charges may be induced on a late placed below a properly constructed and properly oriented pyramid. However the angles are critical and the structure must be accurately aligned on the north-south direction. The construction of a pyramid does not depend on the material of which it is constructed; accurate shape seems to be the essential.

Why this should be so is not clear but it seems that it has to do with the lines of force in the earth which run north and south. It may surprise us to find that the shape of dwelling in which we live affects us. Curiously enough living inside a sphere is not unhealthy. Maybe hospital authorities should study this problem as well as the effect

of room-colour upon the occupants.

You may make your own pyramid from any material stiff enough to prevent collapsing. One firm is even now selling a plastic pyramid. I must hasten to add however, since mentioning the Great Pyramid,

that this structure was not built as a tomb but as a prophecy. Measurements in the passageways of this structure indicate, among others, the exodus from Egypt, the birth of Christ, the Crucifixion, the First World War and the depression of the thirties.

Mortgage loans growing

Residential mortgage loans by the chartered banks grew at a faster rate in Ontario than for the country as a whole, the Canadian Bankers' Association says.

Mortgage loans outstanding in the province were up more than 37 per cent to \$2.2 billion in the 12 months to Sept. 30, 1974, the latest period for which statistics are available. The increase for all provinces was 34 per cent.

The 10 chartered banks have become a major source of mortgage money since removal of lending restric-

tions in the 1967 Bank Act revision. Their outstanding residential mortgage loans have increased more than sixfold since then.

Conventional mortgages, included in the \$2.2 billion total, rose almost 82 per cent to \$950 million during the 12 months, exceeding the national increase of about 75 per cent.

Mortgages insured under the National Housing Act were up more than 15 per cent to \$1.2 billion compared with the all-province increase of less than 13 per cent.

The Haliburton Highways

Now here's a little story
As you will quickly hear
About our Haliburton Highways
And the land we love so dear.
As you travel on these highways
With bumps and holes galore,
You must sit back and wonder
What you're paying taxes for.

And when the roads get icy
We slip and slide along,
The sand it must be made of gold
The way it's sprinkled on.
To keep your car roadworthy
Is a task beyond compare,
The driving is no pleasure,
It's only wear and tear.

We also need those buses
To drive our child to school,
It cost money for their licence
To keep within the rules.
The brains that drive our highway
I assume they must be dead,
The only sign of work we see
Is bump and bump ahead.

We also buy insurance
To get from here to there,
And all that we get in return
Is a bunch of good hot air.
To drive on such a highway
Is a crime for you and me,
One twenty one is just as bad
As Highway 503.

(Composed by a Taxpaying Motorist)

haliburton Highlights

We are glad to report that Captain William Waywell of the Salvation Army is home following surgery in a Peterborough Hospital. All his friends here wish him a speedy recovery to good health.

We wish to inform our readers that the signs and mobiles advertising the Haliburton Figure Skating Club Skating Carnival were made by the pupils of Victoria Street Public School in Haliburton.

Mr and Mrs Gordon Dunsmore of Barrie visited at the home of Mr and Mrs Elwin Robertson last Friday.

Fifteen tons of frozen food from McCains will be distributed free by the Salvation Army at the food distribution Depot at the Haliburton Arena To-Day (Thursday, March 27) from 9:30 a.m. to 9:30 p.m. Our readers are asked to listen to CKVR-TV Barrie and to CHEX-TV and CHEX radio for further information on the distribution.

Patients at the Haliburton Red Cross Hospital this week are as follows: Miss Sarah Parish, Mrs Marguerite Henderson, Mrs Vera Howe, Mrs Della Roberts, Mrs Shiela Griffin and Mr Ross Bryant all of Haliburton, Mr Albert Carpenter, R.R. 1, Minden, Mrs Annie Whitley, Kinmount, Mr Thomas Riel, Gooderham, Ontario.

News from Carnarvon

Mrs Minaker has gone to Scarboro for a week to visit with her two daughters and their families.

Lt. Col. Neil Russell and his wife were visiting with Neil's family Mr and Mrs Sinclair Russell.

We extend our deepest sympathy to the Culley family of Tory Hill in the loss of their father and husband. Wayne Culley and his wife are residents of Carnarvon.

Alison Chambers and Wendy Gorrie were in Ottawa for the weekend. Alison visited with her fiancée's family, and Wendy

Summer theatre opens July 8

The Kawartha Summer Theatre's tenth season will open on Tuesday, July 8, at the Academy Theatre in Lindsay.

Our summer visitors and well as local citizens here in Haliburton County will be sorry to learn that this year sees the end of the Monday night performances at the Haliburton Highlands Secondary School in Haliburton.

Since 1969 the Kawartha Summer Theatre has opened its shows at the Haliburton High School, but this year a new union contract and a big jump in costs renders it financially impossible.

with a school chum from Queens University.

Mr and Mrs Bert Harrison had a number of visitors over the weekend. It was Mrs Harrison's birthday and a lot of her friends called on her. Their son Verne from Peterborough, also their son Raymond and his wife from Hartley.

A beautiful cantata was presented in the Carnarvon

church on Sunday evening, and it was a musical treat. by the choir "Olivet to Mrs Elgin Stouffer was Calvary" There were folks responsible for this and the from Minden Maple Lake choir sure did a good job of and others. The choir had it, she must be proud of our put a lot of work into this choir as we all were.

If you get the feeling good things are happening in Ontario

wait 'til you see what the new lottery does for us.

It's like a kind of awakening. More and more of us are getting into things.

Kids' baseball tournaments. The Hamilton Philharmonic. Jogging clubs, folk dancing, art classes, Bonspiels. It's happening all over the Province and it's only the beginning.

Now, we've got a new "Ministry" to help. The Ministry of Culture and Recreation.

Its job is simply to help each of us get more out of life.

At first it will co-ordinate things already under way. Like the Ontario Summer Games, the Science Centre, the Ontario Heritage Foundation.

But then it will start helping new programs. And there are literally hundreds of opportunities.

Travelling theatre groups. New hockey rinks. Support for women in the arts. New libraries, in places where they don't even exist. Because part of the idea is to give all of us an equal chance to participate, wherever we live.

How can we do it all? Well, there's the funds from the new Ontario Lottery, starting just a few weeks from now.

The Lottery is expected to provide many millions of dollars. And every dollar we then put into the various programs will be for just one reason. To help each of us get more out of life.

So this is going to be one lottery where all of us win.

Manpower Centre places 136 workers

Bob Johnston, Supervisor of Services at the Peterborough Canada Manpower Centre, advises that during the month of February, 635 people were referred to jobs, with the result that 136 were successful in obtaining work.

In addition, another 25 were placed in employment of a casual nature and four others were assisted financially to accept employment outside of the area. Approximately 400 are enrolled at Sir Sandford Fleming College under the Canada Manpower Training Program, and a wide range of courses are available during the next year.

In co-operation with Canada Manpower, local employers commenced skill training for 30 employees. This is made possible under the Canada Manpower Industrial Training Program, whereby employers are reimbursed for employing and then providing skill

training to workers who were unemployed or were about to be laid off. With 5502 persons registered as unemployed and seeking work at the end of February, the programs designed to

increase employment opportunities continue to be emphasized. Canada Manpower Counsellors conduct-

ed 2779 interviews regarding employment or training.

Employers are contacted daily to obtain vacancies, to promote our Industrial Training Program, and to advise them of the availability of workers.

Gems of Truth

THE CRIME OF THE CROSS "There they crucified Him". Luke 23:33

In these four words we have a statement of historic fact. To the world in general they may mean very little, but to the true believer they mean everything. To many, those words mean merely the death of a good man, one who laid down His life for the cause of truth and justice. Many other martyrs have died for a similar cause, but none could equal the One crucified on Calvary. He was more than a mere martyr.

To the children of God the crucifixion speaks of the fulfilment of prophecy; of sacrifice of sin; of a fountain opened for sin and uncleanness (Zechariah 13:1); of the Blood that cleanses from all sin (1 John 1:7), of the bridging of the gulf that separated man from God; of the opening of a way back into God's holy Presence (Hebrews 10: 19-22). At the Cross, the believer sees not a good man, but the Eternal Son of God, not a martyr but Christ the Saviour of the world (Titus 3:4). Calvary speaks not only of a fact of history but of the fact of Redemption.

The trial and crucifixion of our Lord was the meeting place of two great forces that were operating in the

world and are even to this day, namely the love and kindness of the Lord Jehovah to sinful man and the sin of man. Ever since the days of Adam these forces had been moving along side by side. Where sin abounded, Grace did much more abound (Romans 5:20). It was inevitable that these forces should meet in a show-down.

The crime of the Cross showed man at his worst. sin could go no deeper, one sees how desperately evil sin can become. God, in the Person of our Lord Jesus Christ, came into the world on a mission of good-will and salvation, but sin laid its foul hands on Him and would have destroyed Him if it could. Someone has said that sin is shaking a fist in the face of God but here it goes farther, it would dethrone God, it would trample Him under foot, and blot Him out of existence. Sin could go no further than to seek to destroy the Eternal.

Side by side with the ferociousness of sin moved the Eternal love of God. At the Cross we see a true exhibition of the love, the grace, the mercy and long suffering of God to sinful mankind. The Lord Jesus permitted His enemies to triumph over Him that the enormous evil of sin might be made known. At the same time He was giving Himself a redemptive Sacrifice for sinners, yes, for the very enemies who had plotted His death and were gloating over His execution. Could love and grace do any more?

While the "crime" of the Cross and the "redemption" of the Cross happened simultaneously in time, they were however poles apart in nature. The "crime" was carried out by sinful man and crucifixion was not the Divine penalty for sin. The Divine penalty for sin is "death" but the Roman use of crucifixion for offenders could not meet the Divine requirements for that "death". Physical death, in whatever form it may take does not fully meet the decree of death for the sinning soul. Many suffer physical death but they are not meeting the Divine penalty for sin.

The death experiences of our Lord that effected our salvation were in the realm of the Spirit. The death which He tasted for every

Bible quiz

Last weeks question was, "What are the first recorded words of God?" answer - "Let there be light" Genesis 1:3.

QUESTION: Who was the giant whose bedstead was made of iron, and measured 9 cubits long (about 13 feet) and was four cubits wide (about 6 feet)? Answer next week.

Are you part of the human race or just a spectator?

Fitness. In your heart you know it's right.

man was that terrible time of separation from the Eternal God. It was that of which we read in 2 Corinthians 5:21 when He was made "sin for us, who knew no sin, that we might be made the righteousness of God in Him". The "crime" was executed upon the body of our Lord, while the "salvation" He came to bring by that event, was a soul experience. The redemptive sufferings were subjective to the "crime" and the "Blood" flowed as a fountain to wash away sin. It is the "Blood" that maketh atonement for the soul (Leviticus 17:11).

The "crime" of the Cross and the "glory" of the Cross were accomplished together. The "crime" will never more be repeated in like manner, however, the "glory" will bring every Christ rejector to the feet of Jesus in due time, where they will receive their just dues (Isaiah 45:23).

Cardiff Township Council meeting

The Regular Meeting of the Council of the Township of Cardiff was held on the above date with the following members present: Malcolm McGillivray - Reeve, Mack Peters - Deputy Reeve, Ross Lawrence, Clifford Rattle - Councillors.

Mr W. Sherlock representative of the Interim Board of Administrators of the proposed medical centre in Cardiff was in attendance to present a brief to Council for their consideration. Also in attendance was Mr Allan Bronson to discuss the Townships insurance needs for 1975.

Ross Lawrence - Clifford Rattle That the minutes of the last regular meeting held on February 6, 1975 be adopted as read. Carried.

Mack Peters - Ross Lawrence That we increase the limits of non-owned auto, automobile and municipal liability insurance to \$3,000,000. Carried.

Mack Peters - Ross Lawrence Resolved: That severance application H-3375 be approved. Carried.

Mack Peters - Clifford Rattle Resolved: That 1974 taxes in the amount of \$64.00 be cancelled on Prop. # 05019000800 under authority of Sec. 636a Carried.

Ross Lawrence - Mack Peters Resolved: That the Provisional County of Haliburton be authorized to handle tendering and contract procedures on behalf of the Township of Cardiff with regard to the purchase of waste oil for dust control purposes. (estimated require-

ment \$2,000.). Carried.

Mack Peters - Ross Lawrence That tenders be called for the supply of approximately 6,000 tons of crushed gravel. Carried.

Mack Peters - Ross Lawrence Resolved: That the statement of proposed expenditures for highway improvements for the year 1975 be approved as submitted by the Road Superintendent. Carried.

Mack Peters - Clifford Rattle Resolved: That the Road Superintendent attend the C.S. Anderson Road School in May. Registration and expenses to be paid by the municipality. Carried.

Mack Peters - Clifford Rattle Resolved: That in reply to a questionnaire from the Association of Municipalities of Ontario with regard to municipal election dates, the Council of the Township of Cardiff recommends:

1. that municipal elections be held at the same time as is presently,
2. that the day an election is held be the same (Mon.) with advance poll on Sat.,
3. that the newly elected Council assume office as is presently,
4. that the present term of office for municipal councils be the same,
5. that the municipal fiscal year end be as is presently. (Copies of this resolution to the Provisional County of Haliburton and Association of Municipalities of Ontario). Carried.

Ross Lawrence - Clifford Rattle That a donation of

\$25.00 be made to the North Hastings Music Festival Association. Carried.

Clifford Rattle - Mack Peters That the following accounts for the month of February, 1975 be paid: Road Voucher # 2 in the amount of \$4,581.59 and Municipal Voucher # 2 in the amount of \$2,510.60. Carried.

Mack Peters - Ross Lawrence Resolved: That the Council of the Township of Cardiff fully support the establishment of a health centre to be located in

Cardiff Townsite. Considered financial assistance in the amount of \$2,500. Carried.

Mack Peters - Clifford Rattle That we advise the County Road Engineer that the road from K. Cowles to the county road will be assumed by the Township provided that the west part of the road be closed and a turnaround provided by the County. Carried.

Ross Lawrence - Clifford Rattle That a by-law to amend By-law 6-71 sec. 13 (a) be read. "All boathouses or boat storage buildings

which are non-insulated, non-heated buildings used exclusively for the storage of boats and equipment must not extend any closer to the water's edge than the high water mark fronting on a lake or river and must comply with all building by-law requirements in the Township, Crown property regulations and navigation rules. No sleeping quarters

or toilet facilities to be connected with boathouse. Building permit may be obtained only on the condition it meets with Council approval." Read first, second and third time, passed and numbered 4-75.

Ross Lawrence - Clifford Rattle That we adjourn this meeting and meet again on April 10, 1975 at 7:00 p.m. Carried.

Report from Parliament

By William C Scott, MP

The concept of lotteries is certainly nothing new to residents of Ontario. Indeed, at one time or another, almost all of us have been caught up in the anticipation and excitement of the Olympic Lotteries. Very few of us will emerge as "big winners". Yet all will share in the satisfaction of knowing that we have played some small part in bringing to Canada that international competition which is so vital to the development of our athletes.

A few weeks ago, the Honourable Robert Welch, Ontario's new Minister of Culture and Recreation, announced legislation to establish the Ontario Lottery Corporation. This corporation will be a Crown Agency and will be responsible for the development and management of a provincial lottery here in Ontario.

The net proceeds from the lottery will be used by the government to support physical fitness, sports, recreation and culture in Ontario. The government has long provided a variety of cultural and recreational programmes in all parts of Ontario. By bringing them together in a single ministry, they will receive much greater emphasis in response to their increasingly significant role.

Based on experience of lotteries in other areas, it is expected that sales could reach \$100 million within the next couple of years. Approximately 40 per cent of this amount will be returned in prizes, and the payment of operational expenses and sales commissions will amount to another 20 per cent. Thus between \$40 and \$50 million will be available from the lottery to assist in the development of culture and recreation programmes and facilities.

Naturally, there was initial concern over any adverse effect our lottery might have on the sales of Olympic Lottery tickets in Ontario. We have had extensive discussions about this with Olympic Lottery officials, and

they have encouraged us to move ahead with our plans.

We feel strongly that a province-wide lottery will meet with considerable success in Ontario. Residents of this province have already bought more than \$40 million worth of tickets for the Olympic Lottery, and current estimates indicate that another \$40 million is spent annually on the Irish Sweepstakes and other large provincial and state-run lotteries.

There are in addition many social, religious and charitable organizations in Ontario which have made lotteries the main source of funds for their important work. These will continue under the supervision of the Ministry of Consumer and Commercial Relations, and we feel that there is little likelihood of the provincial lottery interfering with their efforts. Research based on other jurisdictions has shown that local lotteries are identified with local activities, and they have their own special attraction and participation.

We do not want the provincial lottery to compete directly with these groups. In fact, we feel that the Ontario Lottery could provide a new source of funds for many non-profit groups who will be given the opportunity of becoming sales agents on a commission basis.

In recent years, the amount of leisure time which has been made available to all of us has increased significantly. Fewer working hours, longer holidays and earlier retirement have all created more time to spend in doing what we want. We must now turn our attentions to the continuous development and improvement of our programmes and facilities in culture and recreation so that all residents may benefit from this increased leisure time. The revenues from the Ontario Lottery will be used to complement the considerable expenditure the provincial government is already making in this vital area.

Lee Hoppe elected pres.

E. L. "Lee" Hoppe of Kitchener was elected President of the 22,000 member Ontario Real Estate Association at its 53rd Annual Conference in Ottawa March 3.

Mr Hoppe is President of E.L. Hoppe Agencies Ltd., of Kitchener.

The Ontario Real Estate Association is an organization of more than 22,000 members representing more than 80 percent of all of the registered brokers, and sales representatives in the province of Ontario. These members are concentrated in 44 member real estate boards serving all major population centres and the majority of smaller municipalities in the province.

Earl Leroy Hoppe, the new OREA President for 1975, was born in Kitchener in 1931 and received his formal education there. Mr Hoppe formed his own real estate company in 1961. The firm has 21 sales representatives operating in the area surrounding Kitchener and also in the Owen Sound and Grey Bruce region. He has been a Director of the Kitchener-Waterloo Real Estate Board for nine years and served as President in 1970.

He is married with two boys and is active in minor hockey, the Lions Club and the Chamber of Commerce.

Over 60 Club meets

The regular meeting of the Over Sixty Club was held at the Salvation Army Hall in Haliburton on Friday, March 21 at 7:30 p.m.

The meeting was conducted by Frank Hargreaves, in the absence of Captain William Waywell, and a portion of scripture was read followed by prayer and a lively sing-song which included songs which are over sixty-years-old and also some old favourites which were thoroughly enjoyed by all present.

The guest speaker was Dr. Christiansen of Halibur-

ton who spoke on his life in Taiwan and in his usual light-hearted manner gave a very inspiring and educational talk which was enjoyed by the 54 people that were in attendance.

Lunch followed which was brought and prepared by five hostesses and two new members joined the club.

Frank Hargreaves thanked Dr. Christiansen for taking time out from his busy schedule for coming and giving the club his most interesting talk.

A bus trip to Campbellford for the members of the over sixty club is planned for April 29.

News from Natural Resources

DOGS VS DEER

Every year Conservation Officers of the Lindsay District receive numerous complaints concerning dogs chasing deer. In late winter frequent storms bring freezing rain causing a hard crust to form. This crust is extremely treacherous to the White-tailed deer whose hard, sharp hooves slip and slide on the icy surface making it easy for dogs to pursue them. The first thing one thinks of when he hears of dogs chasing deer is a pack of wild roving dogs. Well think again if you let your family dog run at large in a deer area. Conservation Officers have found that the family pet, large or small, when he gets together with a few of his doggy friends will chase deer with disastrous results.

The Ministry of Natural Resources suggest you keep your dog properly leashed or penned up at all times.

Please note that Section 77 subsection (1) of the Game and Fish Act states that a person owning a dog shall not allow it to run at large in a locality which deer inhabit or are usually found.

Anyone observing dogs chasing deer are requested to contact the Ministry of Natural Resources immediately at 705-324-6121.

Your 1974 Resident Small Game Hunting Licence expires February 28, 1975 in Victoria and Peterborough Counties lying south of Highway 7, and includes all of Northumberland County. Please consult your 1974 Hunting Summary of expiry dates in other areas.

WOODDUCK CONDOMINIUMS

This spring the Lindsay District will have prepared 44 pairs of Woodduck nesting boxes for a total of 88 individual vacant rooms awaiting the arrival of the Wood Ducks on their return trip from the south which could be anywhere from the State of Virginia to the bottomland swamps of Mexico. The Wood Ducks will return shortly after break-up in search of potential nesting areas where they will construct a nest of swamp grasses, cedar bark, small twigs and a mattress of their own down.

Preferred nesting areas are bottomland swamps or near woodland ponds and streams. Nests which are located in hollows and crevices in trees, either over or near water, have been recorded as high as 40 feet.

The hen will lay anywhere from eight to fourteen, light

brown eggs, of which an average of approximately four juvenile wood ducks will make the trip south the following fall.

The Ministry's attempt to provide wood ducks with a place to build their nests, is still very much in the experimental stage, but hopes are that someday proper habitat management will provide them with a much preferred nesting box or structure, to replace their natural nesting habitat which is slowly diminishing with the outward movement of urban development.

By A.P. O'Donnell
Fish and Wildlife
Management Officer

Wilmot Creek in the town of Newcastle (formerly Clarke Township) is one of the best rainbow trout migration, production and angling streams in the Lindsay District. Currently it is undergoing a major face lifting program. In the past this stream meandered through well cropped grazing grounds and suffered each year from springfloods and sudden flash floods, overflowing the stream banks and flushing silt and other organic material into Lake Ontario and degrading the value of this valuable stream.

From Highway 115 south to Highway 401 the Ministry of Natural Resources is attempting to restore this stream to its natural state.

In the past two years work has progressed on stream banks to stop erosion and hold them from further deterioration.

On a large portion of a sliding bank, tons of large boulders have been strategically placed to arrest this problem. On two other banks where flood conditions take away up to 10 feet of bank annually large wire baskets called gabions have been filled with rock and placed against the banks. These are then covered with fill to allow growth of grasses and shrubs to take place.

Wildlife shrubs and trees are being planted within the flood plain to further hold the soil from floods.

Planned future work includes small falls, rock riffles, cutbanks and shaded areas to further enhance the

appearance of the creek and make it more desirable for both the fish and the fisherman.

The improvements com-

pleted and planned for the future are to compliment the past structure of the stream where Samuel Wilmot opened in 1866 the first Fish

Hatchery in Ontario at the site between Highway 2 and Highway 115. In fact this was the first fish hatchery in Canada.

Read your Tax Guide. It will tell you what's new.

This year the Federal Government has included many new tax benefits that are important to you because they could save you money.

Your federal income Tax Guide explains them thoroughly.

Let's take the Interest Income Deduction as an example. This year for the first time, if you received and reported on your income tax form interest income from many legitimate Canadian sources, including bank deposits, bonds, mortgages and notes, you are allowed to claim as a deduction the total of the amounts up to \$1,000.

Your Tax Guide explains it in detail. Check Item 35.

Increased Personal Exemptions is another item that has changed from last year. All it means is that the Federal Government has increased your personal exemptions to coincide with the rise in the Consumer Price Index. The new personal exemptions are printed on your income tax form. Guide Item 41 tells you more about it.

Well, those are just some of the areas where it pays to follow your Tax Guide and, of course, there are others. The Federal Political Contribution Tax Credit is new as well. Guide Item 52H will tell you all about that one. This year, Family Allowance

Payments are income and have to be declared as such. Check Item 7.

Remember to check some of the other items listed in the Tax Guide which may entitle you to claim deductions, such as Child Care Expenses. Guide Item 33 tells you all about that one. And you may be entitled to deduct your Moving Expenses if you moved during 1974 to earn income in a new location in Canada. Check Item 34B carefully for the details.

And don't forget, if you have contributed to a Registered Retirement Savings Plan, be sure to include your receipt and deduct the allowable amount. Guide Item 29 explains it in detail.

Use your Tax Guide and fill in your tax form carefully, step by step. You'll find it's not as difficult as you think.

If you should have difficulties, however, District Taxation Office addresses and telephone numbers are listed on the back page of your Guide.

Tax Guide '74. How long has it been since you've read a really good book?

We're making it easier to understand.

James Nugent speaks to FPAPA

Present: James Nugent - F.P.A.P.A.; Bert Holmes - F.P.A.P.A.; M.E. Thomas - Kaladar Planning Mills; Ben Burchaul - Domtar; Bill Tolimson - Sawyer-Stoll; Wm. Smith - Smith Logging; Doug McKenzie - MacKenzie & Son; Wm. McKenzie - McKenzie & Son; Elton Sararas - Elton Sararas Logging; Tom Coghlan - Martin Lumber; Gary Soughton - Gary's Logging; John McCrea - McCrea Lumber; William Graf Logging; Floyd Tighe - Wilberforce Veneer; Bruce Biggs - Wilberforce Veneer; B.G. Martin - Martin Lumber; Dave Anderson - Martin Lumber.

Moved by Floyd Tighe, seconded by Ben Burchaul, the minutes of the last meeting be adopted as read.

An election of officers for the present year was held. There were quite a few nominations, but were declined so there will be no change in the executive staff.

Our guest speaker, Mr James Nugent, Manager of the F.P.A.P.A., gave an interesting talk on what the F.P.A.P.A. can do for our Forest Products industry and what is being done for the future.

He mentioned a new on-the-job training program that is available, for supervisors. He stressed the importance of training management personnel so they, in turn, can train the people working for them. There will be a Loss Control program coming to North Bay for Top Management.

One other thing he feels very important is to have

employee involvement in safety programs as a lot of very good ideas come from employees.

Another thing the F. P. A. P. A. will be doing this year is spending \$150,000.00 to advertise safety on radio and t.v.

Jim feels the programs and the co-operation of industry are working, for example, the injury frequency for our area has dropped, for logging, from 73 per cent in 1973 to 46 per cent in 1974 - for sawmilling, from 94 per cent in 1973 to 73 per cent in 1974.

Bert Holmes gave us a demonstration as to the causes of accidents, how to control injuries and down time, using his dominos. He also had a question and answer period which was very interesting.

I would like to remind all members that the Annual Convention of the F. P. A. P. A. will be held in Thunder Bay, May 10, 1975, in the Airline Hotel. Also there are direct flights to Thunder Bay from Toronto.

It was decided that the next Bancroft Committee meeting would be a dinner meeting and will be held June 24, 1975. All members will be notified time and place at a later date.

Moved by Floyd Tighe, seconded by Gary Soughton, that the subject for this meeting should be fire control. Barry Martin agreed to look after arranging this.

Moved by Tom Coghlan, seconded by Gary Stoughton, that the meeting be adjourned.

Ask for this booklet from our representative

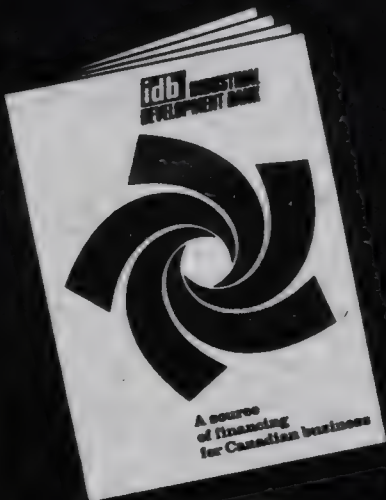

MR. J. I. McKIERNAN

who will be at Beaconbrook Motor Hotel, Haliburton, on Wednesday, April 2, 1975 between 10 am. & 3 pm. Call 457-1610 for an appointment.

If you require financing to start, modernize or expand your business, and are unable to obtain it elsewhere on reasonable terms and conditions, perhaps IDB can help you

Quality of education strained

In my travels around Ontario I am often approached by teachers, students and parents concerned about our educational system. Parents are particularly apprehensive about the quality of the education received by their children. They feel that the standards of learning and discipline in our schools has deteriorated drastically.

Secondary school teachers frequently complain that students cannot write, read or spell.

At the University level this has become so serious that in June of 1974 the University of Western

Ontario decided to make Grade 13 English mandatory for first year admission. However, the Ontario Minister of Colleges and Universities vetoed the action.

Many educators complain that the broad choice of high school credits has virtually destroyed the high school diploma as a meaningful indication of academic achievement. Professor D.J. Dooley, Chairman of the English Department of St. Michael's College, University of Toronto, said recently: "A significant number of freshmen are lacking the preparation they should have for university. The Ministry's curriculum guidelines do nothing to eradicate illiteracy and practically guarantee it."

There is an overriding feeling at all levels that too much stress has been placed on physical facilities so that the prime goal of quality education has gone by the wayside. Obviously, given

the dissatisfaction and frustration pervading the system, a complete reassessment of education in

Ontario must be given the highest priority.

CORPORATION OF THE TOWNSHIP OF DYSART ET AL PUBLIC NOTICE

TAKE NOTICE that the Council of the Municipal Corporation of the Township of Dysart proposed to enact By-laws to stop up, close and sell that part of the original sixty-six foot allowance for road set out and described as follows:

A portion of Victoria Street in the Village of Haliburton - as per survey by H.C. Bishop, dated February 28, 1973.

The proposed By-laws will come before the said Council for consideration at its regular meeting at the Township Office, in the Village of Haliburton on the 14th day of April, 1975, at the hour of 3 o'clock in the afternoon, and at that time, the Council will hear any person or by his counsel, solicitor or agent, any person who claims that his land will be prejudicially affected and who applies to be heard.

Dated at Haliburton this 28th day of February, 1975.

COUNTY HALIBURTON OF ROADS DEPARTMENT TENDERS FOR ROCK DRILLING AND RENTED EQUIPMENT

Sealed Tenders clearly marked "Tenders for Rock Drilling and Equipment Rental" will be received by the undersigned until:

4:30 P.M. E.S.T. TUESDAY, APRIL 8, 1975

for the rock drilling and equipment rentals listed as follows:

1. **Project 75-1103** - County Road #8, 2 miles east of Dorset, Ontario.

Rock drilling approximately 7,000 lineal feet.

1 only minimum 180 net H.P. angle dozer on tracks with ripper and winch - 300 hours.

1 only minimum 140 net H.P. angle dozer on tracks with winch - 500 hours.

1 only minimum 50 D.B. H.P. angle dozer on tracks with winch - 400 hours

1 only minimum SAE rated 2 cu. yd. front-end loader, 4 wheel drive - 100 hours

1 only minimum SAE rated 3 cu. yd. front-end loader, 4 wheel drive - 400 hours.

1 only skidder - 50 hours

1 only Gradall - 100 hours

1 only self propelled vibratory single smooth drum compactor minimum drum diameter 72" - 100 hours.

2. **Project 75-1173** - County Road #7 (Lake Kennis Road) 11 miles north of West Guilford, Ontario.

Approximately 3,000 lineal feet of rock drilling

1 only minimum 140 net H.P. angle dozer on tracks with winch - 120 hours.

1 only minimum 75 D.B. H.P. angle dozer on tracks with winch - 350 hours

1 only minimum SAE rated 2½ cu. yd. front-end loader on tracks - 180 hours.

1 only minimum SAE rated 2 cu. yd. front-end loader, 4 wheel drive - 190 hours.

1 only minimum 50 D.B. H.P. angle dozer on tracks with winch - 90 hours

1 only Gradall - 150 hours

1 7 wheel pneumatic tired roller including towing unit - 75 hours

Tender Forms may be picked up at the office of the undersigned on or after March 26, 1975.

The lowest or any tender not necessarily accepted.

Easter Seals

Research results in major breakthrough

Contradiction of the long accepted beliefs that immobilization, or at most, only intermittent movement are the best treatments for damaged joints has been made in a basic research study conducted by Dr. Robert Salter, Chief of Surgery at Toronto's Hospital for Sick Children.

Working for four years with a series of four research fellows in the Hospital's Research Institute he has proven that when rabbits are subjected to continuous passive motion of their damaged knee joints, there is regeneration of cartilage. The concept of continuous passive movement of a joint had never been investigated previously.

This is the breakthrough that has excited the medical profession, because in the ordinary healing process of a damaged joint which has been immobilized, or only intermittently exercised, what grows is not cartilage, but scar tissue.

Conclusions of the first phase of the experiment would indicate that immobilization is the least efficient way to deal with damage to the joint.

The study, which was financed by the Ontario Society for Crippled Children through its Easter Seal campaign, is still at the basic research stage.

Should such findings hold, a whole new world of biological possibilities opens up in relation to the prevention of degenerative arthritis, not only by preserving cartilage but also through its regeneration.

When Dr. Salter and his colleagues began their experiments they based their work on four premises: joints are meant to move; joint motion enhances nutrition of cartilage; synovial membrane (lining of the joint) is meant to glide and joints are meant to last a lifetime.

Three groups of rabbits were used and each group was treated by a different method of surgery. One group was immobilized; another was allowed cage

activity and the third was placed in slings and the damaged joints subjected to continuous motion by machines designed and built for the purpose.

In spite of the continuous motion, the third group of rabbits thrived. They ate well, drank well, slept well, maintained their weight and were quite content.

What is most important is that after three weeks of continuous passive motion there was excellent healing by true cartilage.

The immobilized group showed no healing after three weeks, and extensive adhesions after 10 weeks of immobilization.

The group, which were allowed to have cage activity

showed incomplete healing by fibrous scar tissue and poorly differentiated cartilage.

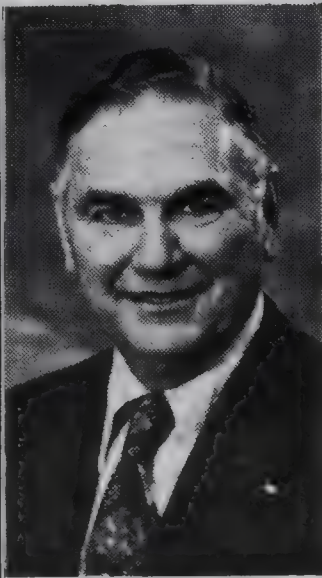

Numerous scientific investigations were done on all three groups and the researchers came to the following conclusions: continuous passive motion is well tolerated by living rabbits; it would seem to be painless; it prevents adhesions and joint contractures; it stimulates healing of full-thickness defects in articular (joint) cartilage more than does normal activity; it produces healing by true articular (joint) cartilage through the process of "chondroneogenesis" which is the regeneration of cartilage from cells in the bone marrow.

The four research fellows, who have worked in the laboratory with Dr. Salter are all doctors who were working toward post-graduate degrees in orthopaedic surgery; they are David Simmonds, Barry Malcolm, Ted Rumble and Douglas MacMichael.

Results of the study were presented in a paper to the Royal College of Physicians and Surgeons of Canada in Winnipeg in January and to the American Orthopaedic Research Society in San Francisco in February.

REAL ESTATE APPRAISAL

DON A. HALL, A.A.C.I.

Beatty-Hall Construction Co. Limited are pleased to announce the opening of their Northern Office to handle Real Estate Appraisals in Muskoka, Haliburton and surrounding areas.

Don Hall is an accredited appraiser and well equipped to handle appraisals for Estates Insurance, Valuation Day Mortgages etc.

The new office is located at Hall's Lake, R. R. #2, Minden Ontario.

Today, higher education is more important than ever before.

This is what Ontario is doing to help make it available to everyone.

Ontario is the best place in Canada to get a higher education. Why? First, the range and diversity of programs our institutions offer. Second, the Ontario Government programs that help students finance their education.

Already, 2 out of 5 students at Ontario colleges and universities are receiving financial aid through the Ontario Student Assistance Program (OSAP). OSAP assists full-time post-secondary students with government-financed loans and grants

based on need, not on academic achievement.

Now, starting with the 1975-76 academic year, there will be two new programs.

The *Ontario Student Loans Plan* is designed to help students who are ineligible for aid from OSAP. It will benefit part-time students, some students enrolled in upgrading programs and those taking programs which are shorter, or have different entry standards than required by OSAP regulations.

The *Ontario Special Bursary Program* gives non-repayable grants to people in serious financial need, particularly those who can improve their financial situation by taking one or more courses. It's designed for part-time students who receive social assistance, are unemployed, or who have a low family income.

If you would like to know what financial assistance is available to you, and how to apply for it, contact the Student Awards Officer at the institution of your choice. Or write to:

Increased activity in Forests division a sure sign of spring

Longer days, sap flowing in the maples, and reports of robin sightings are being heard from a few of the southern radio stations. All of these infallible signs of spring are now upon us. The most notable sign of spring in the Forests Division is the increased activity and conversation concerning tree planting.

Plans of action are being formulated for tree pickups, equipment handling and distribution, and hiring of planters. Tree planting schedules have to be drawn up and checked for feasibility. There will be many meetings held and phone calls placed between now and the actual start of planting, somewhere near mid April.

Tree planting time is the culmination of a whole seasons activities, fields that were covered with grass and weeds when initially inspected, last summer, will soon

be home to thousands of trees.

Inspection of possible planting sites is conducted during the snow free months, followed by drawing up and signing of Woodlands Improvement Act agreements and finally spring tree planting.

This year there will be approximately 850,000 trees of various species planted on private and public lands in the Lindsay District. Fifty-nine private land sites and several crown properties as well as ninety-five acres in Northumberland and Gan-

araska County forests will be involved in the plantings.

Reasons for planting cover everything from straight timber production, to erosion control and recreation and wildlife habitat improvement. Red pine and white spruce are the predominant species but, norway spruce, silver maple, white ash, european larch and black locust are also being planted.

The Woodlands Improvement Act (W.I.A.) came into effect in this area in the latter half of the sixties and has been growing in

popularity every year. There are currently 259 W.I.A. agreements, involving 10,200 acres of private land, in the Lindsay Forest District.

While it is too late, to have

your property planted under the W.I.A. this spring, it is not too early to request inspections for spring 1976 plantings. Some 200,000 trees of our 1976 tree allocation are already spoken for.

Right now mortgages cost less

That home or cottage you hope to own some day can be yours right now! The money you borrow at today's lower rates will enable you to build or renovate now before material and labour costs go higher. Do it today at Victoria and Grey!

Minden W.I. holds March meeting

The Minden Women's Institute met at the Parish Hall March 19 at 2 p.m. with 25 ladies present. The president Mrs. M. Sears conducted the meeting. The roll call, "Your favourite Irish song" reminded all of how many different Irish songs there are.

The card party held earlier in March was a great success and the president thanked all who helped. The District Executive Report given by Ms P. Clarke made us very happy to know that we are continuing to support our foster child. Mention was also made of the District Annual to be held May 13. Mrs. Sears read a poem entitled "The Mischievous Angel."

The public relations officer's report was given. It was decided to have a draw for a grocery basket at our picnic meeting in June with all the members donating gifts for said basket. Mrs. Kernohan reported that all the seats are filled for the bus trip and there is a long waiting list in case someone cannot go. Remember your fare must be in to Mrs. Kernohan by May 21.

Mrs. W. Walker reported on the Tweedsmuir Book but is still working on the history of the area and hopes that many more family or historically interesting events will be given to her. Remember this is the only way we have of preserving past events of our region and any help given her will be greatly appreciated. Surely you know some family history you would like placed in the book. Please help us keep the history of our village and county alive for future generations. There are two Tweedsmuir Books on display at Minden Library and they make very interesting reading. Come and have a look. Pictures are also wanted.

An Executive meeting is called for 1 p.m. at Minden Library on April 2 to verify

the itinerary of our Bus Trip.

The April meeting is to be at the Orange Hall on April 16 at 2 p.m. and the District President will be visiting us then. The meeting closed with the Queen and W.I.

Watch for repair cheats

The Ontario Provincial Police warn that with the approach of warm weather, building repair cheats will be active across the province. These gyp-artists

Grace and while lunch was being prepared some favourite Irish Songs were sung by members with Mrs. Clarke at the piano. A very delicious lunch was served by the committee. A cordial invitation is extended to all

prey on the elderly and unsuspecting home owner, overcharging for roof, chimney, siding and driveway repairs. If you are approached by

Ladies of Haliburton County to attend our meeting in April. Remember like The Fair, we are the only Women's Institute in the County and our membership is open to all. Do come and visit us.

anyone to contract for repairs, be sure they represent a legitimate and responsible company. Sign nothing and pay nothing until you are sure that you are dealing with an honest, established businessman.

Remember, a reputable contractor will not usually demand a large deposit before starting a job.

If you don't know the contractor - don't trust him. Check on his reliability.

Should you have any doubt, contact your local Police Department or nearest detachment of the Ontario Provincial Police.

News from Maple Lake

Mrs Lillie Buglow has been a visitor in the community seeing relatives and friends and spending some time with her father Whitney Barry.

We are sorry to hear Vera Howe was taken suddenly ill and put in hospital all her friends send get well greetings.

Also our neighbour to the East, Mrs Peggy Henderson of West Guilford had a heart attack and is in hospital. Her Maple Lake friends send get well greetings.

To all sick and shut ins of our community we all send greetings and Easter wishes.

One can imagine we hear

the drip-drip of sap on mornings like these. Our snow is dropping fast. This week one could walk on the crust early in the morning.

The fishermen are having quite good luck farther away and report a nice trip on ski-doo's.

Mrs Rella McEwen and children were home to Mr

and Mrs Gordon Carr's this week.

Cecil Morrison returned from hospital on Thursday of this week March 20. Although home he is not very good. It will take sometime for his knee to be strong and back to normal.

We were glad to hear more details of the rescue from Beech Lake of the two skiing men and that action be taken to give credit when credit is due, and where. "Thanks Harry."

Mrs Margaret Cook spent a few days visiting in Minden this past week and called to see her nieces the Cooper twins.

Mrs Annie Fountain is greatly improved in health, but still has the pain in her back if on her feet for very long periods "more bed rest is needed Annie."

Halls Lake news

A good congregation turned out to St. Stephen's Church at 3 P.M. on Sunday. Rev. Douglas Brown and Lay Reader Lloyd Johnson took part in the Service, with Lloyd preaching a very good sermon.

A wonderful rendition of "Olivet to Calvary" by Maunder was enjoyed by a full church at Carnarvon United Sunday evening. Mrs Elgin Stouffer had the excellent choir, augmented by a few extras, well in hand both as to voice control and decorum. The solo parts were a pleasure to listen to and one could have heard a pin drop. The rolling of "thunder" during the March to Calvary depicted the importance of the organ music and everyone surely felt the significance of this beautiful piece of sacred music during this Lenten Season and the approach of Palm Sunday and Easter. It was nice to see Rev. Brown and a good number of the St. Stephen's congregation, St. Paul's, the United Church in Minden, Eagle Lake and Maple Lake all there to truly enjoy this Masterpiece. We felt it was an honour to hear "Olivet to Calvary" and we realized the hours of grinding practise that went into this production. Marilyn Stouffer deserves a great deal of credit and thanks to this great group of devoted singers, even to the smallest child, we would like to express this thanks.

What a lovely weekend - still enough snow for the machines, but lovely bright sunshine. Many fishermen are around the Lakes, and even though they do not always make a "catch" they say they feel much better after a day in this lovely clean and clear air.

Mrs Hazel Welch has returned from having a really nice visit with her cousin in Kirkfield, and looking much better for the change.

We are pleased to hear that Mr Gordon Sawyer is home again and we sincerely trust he will feel better with the Spring days fast

approaching.

Mr and Mrs Archie Neil from Bramalea and Mr Douglas Ramer of Stouffville were up for the weekend to their places on Kushog Lake and joined in the St. Patrick's Party at Club 35, and report having had a great time. Ruth Neil and Douglas Ramer are brother and sister and have been coming to this area since they were quite small.

The St. Patrick's Party at Club 35 was a huge success with just a nice crowd for the size of the hall. Elmer Russell and his boys Scott and Stewart, Curtis Gart-

shore, Archie Trumbell and Larry Anderson all doing their "stuff" and "Pop" Hart at the piano doing his usual fine job. Bill Gartshore did the calling and helping with the special dances and distribution of prizes etc. which Leonard Stinson had arranged. The Buffet Table at midnight was a delightful affair, planned by Florence Lindsay and her willing group of workers. Long tables dressed up with St. Patrick's cloth and serviettes were most attractive. Everyone agreed this was another of those Happy Times' parties and Art Hunt as President thanked everyone for making it such an event - those who helped and those who just came along to enjoy the whole evening.

Thank-You

I would like to take this opportunity to express my sincere thanks to all my friends for the cards, letters and phone calls while I was a patient in the Toronto General Hospital.

A special thank you to Wayne, Gary, Cecil and John of the Haliburton Ambulance Service. Leo Finchen.

I wish to extend a heartfelt thanks to all our friends and relatives for the many beautiful cards and gifts sent to me while in Peterborough Hospital, and those who telephoned and visited with me. Also to Dr. Doval and Dr. May, the nurses and hospital staff, and to the Rev. Mr. Bushell of Minden; to St. Stephen's Ladies Guild and Club 35 of Hall's Lake. My wife Mabel also wishes to thank all the friends who were so kind and helpful to her during my absence. Pete Sawyer.

What does it cost

to build a new school

or fix the streets

in your town?

The public has a right to know what it costs to build or improve a street or building in your town. Your local newspaper is the publication where you find that information.

For centuries, people have recognized the right of the community and of the individual to be put on notice.

Many citizens don't understand what a legal notice is, or why they're printed in your local newspaper. Many people don't read them until it's too late.

Legal notices keep a citizen informed on all school, city and provincial action by official bodies. legal notices also give a citizen an opportunity to do something about some proposed action that may affect his rights.

Your local newspaper is a long established medium for such notices as provided by law or by official designation. And, it's one of the many public services provided by this newspaper.
